

## A great Brown Swiss run with the first bull over 200 ISU points!

With this last run of the year, genomic values of our Brown Swiss line up are reaching to the top. PACTOLE is now 202 in ISU, gaining 8 points, still leading the pack! There are also 6 more bulls over 180 pts ISU that combine great volumes of solids, fitness and complete type: OPTIMAL, LBB RALICE, RULLY, PISTON, ROCKY and the newcomer SATURNE:

## SATURNE, a top new Optimal son

Optimal x lfeeling x Vigor

*MADMOISELLE, SATURNE'S DAM*

Born at Gaec Brast in Aveyron, SATURNE will appeal to dairymen looking for a high level of production without sacrificing components and fitness traits. IFEELING Madmoiselle, his dam, has just completed her 4<sup>th</sup> lactation in 305 days at 10,318 kg with 4.75 %F and 3.89 %P. In her pedigree we find Vigor IGELLE VG 86 and Jolt CHANTELLE VG 87, going directly back to the famous Hussli TIGELLE EX 90 and its 130,000 kg lifetime production! SATURNE is the worthy heir of this extremely reliable family which has already delivered the proven bull ISOLD and more recently NO DECIBEL, which daughters are entering into production with stunning udders. He is one of the rare bulls to combine a high milk potential with very positive components while improving longevity and fertility. The udders will be high and well attached, with perfect teats in size and position. His daughters will be of a more moderate size and he will also bring good feet and legs. He ranks very well in Switzerland at 1437 GZW CH and in Germany at 126 GZW. He has the sought-after BB and A2A2 caseins, available only sexed from January.

## Other Top Genomic bulls

### LBB RALICE

O Malley x Vigor x Juleng  
aAa 423651

He remains the best son of O Malley for milk at +1688! Associated with a flawless linear morphology, it will bring dimensions in the body and rump, with very good feet and legs. The udders will be very good with a strong ligament and a high rear attachment. He is also a daughter fertility improver and BB A2A2 enhancer. LBB RALICE ranks well in Italy at 961 ITE with +1147 milk and 118 type and udder. He is available conventional and sexed.

*LBB LALICE, LBB RALICE'S DAM*

*LBB RALICE*

### SKYFALL

Optimal x Loustic x Anibal  
aAa 615243

He ranks at the top of several genomic lists, with 1486 GZW CH he is in the top 5 in Switzerland and number 7 of foreign bulls in Germany at GZW 133. He comes from the family of Zeus CH ZEA EX 94, dam of Fun ABF, she produced 117,943 kg in her career at 4.68 %F and 3.62 %P! SKYFALL is a complete bull on all traits and which presents an interesting milk potential, along with improving fertility and longevity. He will also sire excellent top lines and good feet and legs. The udders will be high and very well attached, the teats with a short tendency will have to be taken into account in the mating. An interesting asset is the good muscularity combined with high production. He offers the sought-after BB and A2A2 caseins, available sexed semen.

*OHEA ABF, SKYFALL'S DAM*

**SINEL**  
**Opinel x Narcotic x Glarus**  
**aAa 243165**

*SINEL*

SINEL hails from the VERTUE VG 89, SISSIE VG 88, OCEANE EX93 family, true brood cow from France. The type is strongly anchored in the pedigree with an average of 87.5 pts over 6 generations.

The dairy potential is not to be outdone, like his father Opinel. He is also one of the best bulls for improving fertility! BB and A2A2 caseins make him a bull of choice for quality milk producers. Its complete profile on all positions makes it easy to use on all any bloodlines because it is free of BIVER and ANIBAL blood.

## Proven bulls

**NICE GP**  
**Fact x Calvin x Glenn**  
**aAa 243615**

NICE GP keeps adding daughters to his proof and improving again his total ISU of +11 pts! With close to 200 daughters in production, he has a unique profile with +2.5 udder, +2.0 udder health, +1.8 fertility and +1.7 longevity ! NICE GP makes the powerful kind of cows people love to work with, health and long lasting! He gained also in Switzerland with now 1345 GZW, in the top 5 of his generation

*PARRURE, NICE GP'S DAUGHTER*

**O MALLEY**  
Bender x Glarus x Dally  
aAa 423561

He doesn't have yet a big number of daughters in the proof for the December run, but we expect more than 150 in April 2023. Many O MALLEY cows are calving in France and Switzerland, and other countries. The most exported bull from France in the last years has a strong influence also through his numerous sons worldwide. First feedback from the field are very encouraging: they give a lot of satisfaction to their owners, with very good production, nice udders and balanced cows. We look forward to next year development of O MALLEY as a proven bull, still available both conventional and sexed, BB and A2A2.
