

NEW RECORD FOR THE FRENCH BROWN SWISS ISU !

An impressive package of new bulls for this August proofs run, all available in female sexed semen !

BREAKING NEWS BROWN SWISS ISU

Brown Swiss genomic

-**SNOOPY** (Jonmar) arrives straight at the first ISU place with an impressive 208 ISU. He is the best Jonmar son in the world, from Namur cow family. He owns one of the highest milk proofs ever with +2293 kg ! He also ranks well in PPR, GZW DE and GZW CH.

-**TORONTO** (Piston) ranks high everywhere ! Top PPR, top GZW DE, top ITE and now top ISU with 199 ! Loads of milk with high protein % and strong frames. From Rastaroket family.

-**TITANIUM** also can't be missed at 188 ISU. This new Noro son from a new cow family with great components, impressive fitness and type is also obviously ranking well everywhere : #1 foreign bull in Germany.

-**TALICO P** is an amazing Veles P son, heterozygous polled from the very famous LBB Lalice Vigor EX 92 family, intermediate champion at SwissExpo 2018 !

-**TRIPOLI** is a new super Optimal son, ticking all boxes, especially the teat length one, transmitting medium sized and powerful cows along with very good production and excellent fertility traits.

-**THOR** is such a nice outcross pedigree (Parador x Visor), extremely complete without any fault and 182 ISU.

-**PACTOLE** still holds the second place with 204 ISU. He is still high in the USA on PPR along with no more than 6 of his sons in the top 7 !

Perdrix, dam of SNOOPY

Olysee, dam of TORONTO

Brown Swiss proven

-**O MALLEY** doubled his number of daughters in milk and went up in his milk proof by +156 kg. Many more are still to come or just starting their lactation. He is very stable with a very complete type, nice udders, excellent components and good fertility.

-**OSBOURNE** is such a good proven bull, the best Fact son in GZW. High milk with nice udders, protein, balanced frame.

-**NATUREL** starts to add daughters and confirms to be a very high milk proven bull with +1682 milk !

Recreati66, daughter of OSBOURNE

We are excited to see the first proven proofs of OPTIMAL in December, and PACTOLE next year in April. The first PACTOLE daughter calved in France at 22,5 months and started her milk production with 30,8 kg/da
