

SYNETICS SIRES PERFORM ON HIGH LEVEL WITH COMPLETE LINEARS

BREAKING NEWS HOLSTEIN TPI

Sturdy proofs for SYNETICS bulls for August '23 breeding value estimation!

- SYNETICS provides 12 bulls above 3000 TPI and 21 over 1000 NM\$ free available!
- **Bigshow** was able to stay on the same TPI level and could gain some points on NM\$, 1162
- **Summerlake** and **Lenovo** keeping up to be the highest ranking proven foreign bulls in the TOP 35 TPI list
- **Promise Red** the highest, available red TPI bull, 2853 with perfect linear, high production and positive components

Black & white genomic:

- The highest ranking and available bull, **Bigshow** kept his proof value and is still one of the most complete and interesting bull on the open market with 3069 TPI and 1162 NM\$

- **Bosvito**, the particular bull with high breeding values, combined with over 2 for PTAT and udder. On top, decent production with positive DPR, +1,1

- With **Turner**, we can provide for you the first Ridercup son. He shows us a very complete and modern linear profile, combined with high components and low SCS, 2,63

- With **Zatney P**, **Ska PP RDC** and **Fraser PP** we are also able to provide some very complete and divers polled bulls

- If you are looking for high type bulls, we can offer you

- **Way Maker** (PTAT 3,63 / UDC 3,09), **KingMaster** (PTAT 3,07 / UDC 2,90) and **Grenadier** (PTAT 3,18 / UDC 3,09). All three are positive in production and balanced linear profiles.

- On the other hand, we are able to provide wit **Mahomes** a very high production bull, +2203 milk

Bigshow

Black & white daughter proven:

- **Summerlake** and **Lenovo** are remaining to be the highest foreign, daughter proven bulls in the TPI list. Both are specialists, when it comes to high components and decent production.

Beata, Lenovo daughter

Red & white genomic:

- With **Promise red** we can offer you a new Ranger Red son. A decent production and a perfect, modern linear profile mark his strength.

- The second Ranger Red son we like to point out to you is **Random Red**. His mother is the full sister to Spark Red. His breeding value is also above 2800 TPI with positive DPR and outstanding FLC +1.20

- The third red & white bull we want to bring to your attention is **Cool Red**. This Camden son is an easy calving bull (1,8) high in production and neutral in DPR. On top he combines 1,24 UDC with 1,23 FLC

- With **Mat Red PP** we can provide a homozygote polled bull with nearly 2800 TPI, 1,7 SCE and 2,67 SCS.

- If you are looking for a type, red and polled bull, we recommend looking at **Maz Red PP**. Very easy calving, 1,5 SCE, nice SCS 2,64 and on top 2,47 UDC. That makes this Mc Donald-P-Red son very special.

Chope P, dam of Maz Red PP

This August proof underlined the unique and diverse portfolio in the TPI scale that SYNETICS can provide you. On top, most of the bulls are sexed available, from very deep and high respected cow families.

If you have further questions, don't hesitate to contact your local SYNETICS representative.
