

A UNIQUE AND LARGE OFFER PROVEN BULLS FROM THE TWO HARDIEST DAIRY BREEDS FROM THE ALPS

BREAKING NEWS ABONDANCE TARENDAISE ISU

So many bulls are available in both breeds (134 Abondance and 130 Tarentaise), and now you can easier find them with their segment (milk, components, ...). Those 2 breeds also have several genomic bulls available in sexed semen only. Whether you use them pure or in dairy crossbreeding, to bring their outstanding robustness qualities and powerful medium size, you should take a look at our unique offer in the world!

Abondance daughter proven

- **MILLET** still holds the 1st place of the Abondance export offer with 140 ISU, A2A2, still not to be used on heifers. Amazing production bull and #1 udders.
- **LAMOUREUX** stands 2nd with 135 ISU, very high BB milk bull (+1264 kg)
- **LELY** slightly dropped to 133 remaining rank 3.
- **LEOPARO** keeps up at 133 ISU with +731kg milk, easy calving, nice type
- **LACLUSAZ** remain very attractive for many aspects (components, milk, BB A2A2, strong cows)
- **LOUDIX, MACARON** and **MALZIEU** are still very interesting bulls who were on the French offer last year like the 4 bulls above.
- **HEUREUX** shows excellent rumps and reproduction.
- **IVOREL** can't be missed for fat, milk, A2A2, beef abilities, small and strong cows with very nice udders and easy calving.
