

Top genomic and proven bulls, with new polled bulls !

7 new Brown Swiss bulls enter our line up for this April proof run. All of them are BB and A2A2, available sexed ! 2 of them are heterozygous polled, and 2 of them are "type" bulls ! Several have outcross pedigrees. Here is a quick highlight on the first proofs from Germany / Austria.

7 new bulls

#1 foreign bull

Brown Swiss genomic bulls

- **Tornero P** (S. Ramses) is a top new heterozygous polled bull at 128 GZW from an outcross pedigree. He has a complete profile and ranks well everywhere !
- **Tiramisu** (S. Rocky) arrives with its original pedigree at 128 GZW, very high milk potential and fertility, giving strong cows with wide udders and rumps.
- **Terraz** (S. Phenix) at 125 GZW has also a different pedigree without Blooming blood, showing high components, fitness and complete type with strength and ideal teat size.
- **Touareg** (S. O Malley) is a new type bull from the famous O Malley, from a very deep family: Unic Brunette VG-88; he has a very interesting triple A code, and a very high milk potential in the maternal line.
- **Titanium** (S. Noro) is still #1 available foreign bulls on GZW! From a new family, excellent components, fitness and type.

Tornero P's dam, Roleasing

Terraz's dam, Rosabelle

Tiramisu's dam, Rigolote

Brown Swiss daughter proven bulls

- **Maestro GP** (S. Ifeeling) is now one of the best proven bulls in Germany with 137 GZW. He is BB, A2A2 with great udders, milk, components, from the famous Douane family !

This is just a small excerpt from the interesting portfolio of SYNETICS. We will shortly be presenting our current range of bulls in more detail here.
