Brown Swiss genomic bulls

- **Tornero P** (S. Ramses) is a top new heterozygous polled bull at 204 ISU from an outcross pedigree. He has a complete profile and ranks well everywhere ! BB, A2A2, available sexed.
- **Terraz** (S. Phenix) has also a different pedigree without Blooming blood, showing high components, fitness and complete type with strength and ideal teat size.
- **Tiramisu** (S. Rocky) arrives with its original pedigree, very high milk potential, fertility giving strong cows with wide udders and rumps.
- **Thalassa** (S. Piston) follows with its original pedigree as well, high milk, excellent health, producing medium sized strong cows.
- **Touareg** (S. O Malley) is a new type bull from the famous O Malley, from a very deep family: Unic Brunette VG-88; he has a very interesting triple A code, and a very high milk potential in the maternal line.
- **Ultratop** (S. Adee) is also a new bull in our line up, one of the first Adee son. It's a high type bull at 2,1 type with high longevity, from the famous family of Urgele EX-91 and her 123 000kg lifetime production.
- **Urion P** (S. Leon PP) is a heterozygous polled bull with high type, BB & A2A2 ! He is from a new deep cow family.

Brown Swiss daughter proven bulls

- **Optimal** (S. Sinatra) is newly proven ! Still an impressive milk proof, great udders, producing medium size very strong cows. Still available sexed !
- **Osbourne** (S. Fact) is still our #1 proven bull on ISU at 182. Still high milk and nice udders, adapted to robot milking.
- **O Malley** (S. Bender) keeps adding daughters worldwide and confirms being a fantastic components bull with complete profile and especially amazing udders.
- **Pactole** (S. Blower) is now 198 ISU with his very first daughters in his proof. We look forward to August to get a stable proof with much more daughters.
