

SYNETICS, Leading for Health & Genetic Progress !

SYNETICS brings the highest bulls' level to get most efficient cows, and also anticipates tomorrow by providing essential new traits for farmer's challenges and society's requirements.

BASE CHANGES: NORMANDE IMPROVEMENTS

As every year April proof run means change of population base. It passe from females born 2015-2017 at females born 2016-2018. You can see below the improvements of the female population.

ISU	Milk	Prot%	Fat%	Type	Udder	UdH	Beef	Repro
+6,3	+111	+0,09	+0,02	+0,15	+0,13	+0,12	+0,09	+0,01

HEALTH INNOVATIONS

Resistance to Paratuberculosis (John's disease)

A new label defines the bulls:

It means that the bull transmits a resistancy to **John's disease** to his daughters, see further information [here](#)

x2 It's how you improve the resistancy in 1 generation with  bulls in your herd !!

Changes in Hoof Health

Private proofs become national proofs, find further information [here](#):

RLI → SLI (Synthesis Infectious Lesions)

RLNI → SLM (Synthesis Mechanical Lesions)

A **NEW** one STPI (Synthesis Hoof Health)
