

SYNETICS leader in Health and Genetic Progress !

SYNETICS brings the highest bulls' level to get efficient cows and anticipates tomorrow by providing essential new traits for farmer's challenges and society's requirements.

ANNUAL BASE CHANGE : HISTORICAL GENETIC PROGRESS IN PIE ROUGE BREED

The annual genetic base change shows the genetic progress made by the last generations and SYNETICS has largely contributed to this. This year the increase is historic with +9 ISU points taking the lead among the French dairy breeds.

Hoof Health now a National proof

Holstein has put his hoof on the accelerator !

7 years after Génosanté, a national Single Step proof enables greater genetic progress.
