

A raise in our French Fleckvieh offer proofs

To show the quality of our offer!

BREAKING NEWS FLECKVIEH ISU: Many very attractive bulls and the most recent ones raised their proofs, don't miss them!

French Fleckvieh genomic bulls

- **Titan** (Enjoy x Pandora) - an outstanding type. From an exceptional family that has won awards at the most important show in France, Titan is a complete bull in production with 1522 kg of milk and positive components. He reach 196 ISU points and is available in conventional and sexed semen.
- **Tyrol** (Hauk x Weissensee) today, the #1 in ISU. An extremely dairy bull with over 2250 kg of milk, he will provide solid udders with very good attachments. He can be used on heifers. Only available in conventional semen.
- **Teveyzou P** (Mensur P x McDrive P) A new polled bull, this heterozygous provides rich production (683 milk, 2.6 TP and 3.9 TB) and very good fitness traits, particularly in reproduction. Very easy calving bull, can be used on hiefers. Only available in conventional.
- **Tango** (Magier x Raffzahn) has a very interesting high components profile with nice type, he will bring outstanding qualities in udder and feet & legs to his daughters. Only available in conventional.
