

## Top genomic bulls become top PROVEN too !

Optimal and Pactole go up with milking daughters

This August run is an impressive milestone for the confirmation of French Brown Swiss reliability : genomic stars **Optimal** and **Pactole** are now proven and gain respectively +4 and +7 GZW.

**Uderzo P** and **Tomy P** are joining a great team of polled bulls

2 new bulls

6 polled bulls

### Brown Swiss genomic bulls

- **Uderzo P** (S. Tamboy P) is a new intriguing heterozygous polled with great volumes of milk, from a new cow family and outcross pedigree. Medium size with great width and power, available both conventional and sexed
- **Tomy P** (S. Vivek P) also a new top heterozygous polled with extreme solids and super fitness traits, from a Barca dam out of Rastaroket family, appealing type profile with aAa 516432
- **Titanium** (S. Noro) remains #1 available foreign bull on GZW and gained 1 pt. Great components with top fitness and udders.
- **Toronto** (S. Piston) ranks at the top of the list too with 134 GZW and a combination of milk, power and fitness, from Rastaroket cow family
- **Tornero P** (S. Ramses) is one of the best heterozygous polled bull at 127 GZW with a complete package
- **Snoopy** (S. Jonmar) ranks at the very top of our list for milk at +1244 kg and 131 GZW

*Remise (S. Aristo) dam of Uderzo P*

*Tomy P (S. Vivek P)*

### Brown Swiss daughter proven bulls

- **Optimal** (S. Sinatra) added a large number of daughters in milk and went up +4 pt of GZW. A breed leader to combine milk + udder + fertility and well balanced cows
- **Pactole** (S. Blower) is just starting to become proven and what a start ! He gained 7 pts of GZW but also in all systems worldwide !
- **Maestro GP** (S. Ifeeling) remains at the top of the proven list in GZW at 137 pts, ideal sire in grazing systems

*Sephora, daughter of Pactole*

This is just a small excerpt from the interesting portfolio of SYNETICS. We will shortly be presenting our current range of bulls in more detail here.
