

WHAT IS NEW AFTER THE APRIL 2025 PROOF RUN?

The base change happening every 5 years in the USA showed our bulls standing remarkably well. We are continuing to develop our polled Jersey line-up to provide a unique offer. Some of our first bulls have already daughters in their third lactation and keep to impress with great combination of functionality, production and type.

Dilbert-P daughter Uljana

We are looking for sires that combine positive performance and the highest possible DPR, a faultless linear from deep cow families. Most of them are polled, sexed, and A2/A2 !

JERSEY BULLS ON US BASE

Shakiri P

Great production with mindblowing udders

Sue P x Motor-P x Demos P

- New, highly interesting Jersey bull with faultless linear profile, that shows overwhelming udders
- High milk production, positive protein with decent NM\$ and CM\$ make him a great addition

< Jola GP-84, dam of Shakiri P
