

## SYNETICS, Leading for Health & Genetic Progress!

SYNETICS brings the highest bulls' level to get most efficient cows, and also anticipates tomorrow by providing essential new traits for farmer's challenges and society's requirements

### News: Base change & new traits

#### 2025 Normande base changes: an historic improvement !

As every year April proof run means change of population base. It passe from females born 2016-2018 at females born 2017-2019. You can see below the improvements of the female population.

2025	ISU	Prot	Fat	Milk	Type	Udder	Frame	F&L	MS	UdH	Repro	Beef
	+6,5	+0,09	+0,12	+91	+0,16	+0,13	+0,10	+0,10	+0,01	+0,14	+0,04	+0,06

#### 2025 New traits:

For the udder, 2 new traits are now available to describe the teats and obtain even more functional udders for milking in robots or parlours:

The TEAT LENGTH & The REAR TEAT PLACEMENT

Teat Length (TL)

Rear Teat Placement (RTP)

Change about beef abilities: the new trait **Cull Cow Value** will replace the trait Muscularity. These new traits is calculating from slaughter data.

Other new information, after many years as private proof **Resistance to Acetonemia** is now a national proof.
